

OECD Responsible Supply Chain Policy

1. Purpose

Gentle Metal Limited commits to responsible sourcing and supply chain integrity aligned with OECD Due Diligence Guidance. This policy aims to mitigate risks related to unethical practices, illegal sourcing, and adverse social or environmental impacts.

2. Due Diligence Framework

Establish and maintain a robust supply chain management system to identify, assess, and mitigate risks.

Engage supply chain partners on compliance expectations and require adherence to ethical sourcing standards.

3. Risk Identification and Management

Conduct risk-based assessments focusing on conflict minerals, illegal mining, human rights abuses, and environmental harm within the supply chain.

Implement corrective actions where risks or violations are identified.

4. Transparency and Reporting

Maintain transparent records of supply chain sourcing and audit outcomes.

Provide regular reporting to stakeholders on supply chain due diligence and improvements.

5. Collaboration and Continuous Improvement

Collaborate with industry peers, regulators, and NGOs to enhance supply chain transparency and responsibility.

Review and update supply chain policies regularly to reflect evolving best practices and regulatory changes.
